

Dhiraj Sinha

Senior Product & Engineering Leader | Enterprise B2B SaaS | Salesforce · HubSpot · Dynamics | 30+ Team | Global Stakeholders

Bhilai, Chhattisgarh, India | yy.dhiraj@gmail.com | linkedin.com/in/dhiraj-sinha-75803a131 | dhiraj7992.github.io/dhiraj-portfolio

PROFESSIONAL SUMMARY

Product and engineering leader with 15+ years of experience building and scaling enterprise B2B SaaS products. Currently lead 30+ engineers and support staff in India for a US-headquartered SaaS company, partnering directly with founders on product strategy, PRDs, roadmaps, and delivery. Deep expertise in CRM integrations (Salesforce, HubSpot, Microsoft Dynamics), Agile product operations, and cross-functional leadership across global teams. Hands-on technical fluency in Node.js, React, Angular, and PostgreSQL. Track record of improving delivery velocity by 35% and compressing executive feedback cycles from weeks to days.

PROFESSIONAL EXPERIENCE

Senior Product Manager - India Operations

May 2024 – Present

LeadAngel Technologies Pvt Ltd

Bhilai, India (HQ: USA) · B2B Enterprise SaaS · CRM Lead Automation

- Lead product and engineering operations for a US-headquartered B2B enterprise SaaS platform, managing 30+ engineers and support staff across India.
- Primary interface between US founders/executive stakeholders and India engineering; translate priorities into PRDs, quarterly roadmaps, and release plans.
- Own product strategy for automated lead assignment and enterprise CRM integrations (Salesforce, HubSpot, Microsoft Dynamics).
- Improved delivery velocity and product quality by 35% through Agile sprint planning, release governance, and QA process redesign.
- Reduced stakeholder feedback cycles from weeks to days via structured exec syncs, demo cadence, and prioritization frameworks.
- Drive cross-functional alignment across Product, Engineering, QA, and Customer Support for enterprise client outcomes and production readiness.

Senior Product Consultant

Apr 2021 – Jun 2023

Saytum Technologies Pvt Ltd

Bhilai, India · B2B SaaS Marketplace Platform

- Owned product strategy for a B2B SaaS marketplace platform supporting high-volume, transaction-heavy enterprise workflows.
- Defined product workflows, business rules, and system architecture - service matching, partner onboarding, and allocation logic.
- Authored PRDs, functional specs, and business logic documentation from MVP through production releases.
- Built roadmap aligned to business goals, prioritizing by customer impact, revenue leverage, and engineering capacity.
- Partnered with engineering on journey optimization, release planning, and UAT to improve conversion and platform reliability.

Project Manager

Jan 2018 – Feb 2021

Ondot Courier and Express Cargo

Delhi, India · Multi-branch Operations

- Led end-to-end project delivery for shipment tracking, branch billing, and operational workflow initiatives across a multi-branch network.
- Prioritized and shipped platform enhancements based on branch feedback, revenue impact, and engineering capacity.
- Managed UAT cycles, release sign-offs, and production cutovers with development and operations stakeholders.
- Standardized project plans, acceptance criteria, and demo cadence to shorten the path from requirement to live deployment.

Product Owner

Jun 2010 – Dec 2017

Jai Balaji Logitech Private Limited (JBL Xpress)

Delhi, India · Multi-location Operations

- Translated field and business-unit requirements into product specs for a greenfield operations management system.
- Designed core user flows, business rules, and branch-level workflows for multi-location rollout and onboarding.
- Authored functional documentation and UAT plans; coordinated phased releases with internal development teams.
- Advanced from business analysis to product ownership over 7+ years, establishing platform standards across the branch network.
